Commenting on the performance, Mr. Atul Mehta, Chairman & Managing Director, said, "I am very pleased to share that our company posted strong performance across revenue & profitability during FY22 inspite of witnessing persistent covid disruptions throughout the year across the country.

This robust performance was led by strong demand across our product offerings, marketing initiatives, new business development and cost optimization initiatives. This demand was also led by restarting of offices and while some of the demand continue to come from work from home segments. Our diversified product segments across IT consumer, IT Enterprises, Cloud & Hardware services with excellent service support gives a value proposition to our customers.

Going forward, our focus will continue to keep on adding new brands to our portfolio, penetrate newer regions to increase the scale of the business, improve the product mix & optimize the cost structure to drive the profitability and thus create value for all our stakeholders."
